100 G2X

100 G2 X

100 G2X

One of the most iconic models on Ribco history is the 100 G2. This model is very well known for her sea keeping ability almost under any condition. She proved it at the competitive Aegean sea throughout the years and also at the famous race : “2008 Round of Britain Race”. But it was not only the offshore characteristics that made 100 G2 famous. The spacious deck, the attention to detail, the material quality and the finishing complete the fame of it.

Today the legend is back! Hundreds of requests from the moment that the production of the 100 G2 discontinued, convinced us that we have to resurrected. We added our experience especially on the deck design with new solutions and at the construction with new stronger and lighter materials and the predecessor of 100 G2 is born. The name of it is 100 G2 X combining the past with the present.

The pureness remains with simple lines and a lot of space for 10 people that you normally find on much bigger boats. Despite the fact that 100 G2 X looks huge, the overall length is less than 10 m. Due to the efficient hull we can achieve very good performance without the need of huge engines.

About RIBCO

In 1994 Ribco was born by Stelios Ladopoulos and Valerianos Nikas. Their passion for perfection and their love for the sea was part of the inspiration. Their dream was to produce the best RIB boats in the market. Excellent quality in every aspect, great sea keeping characteristics combined with bulletproof construction. Numbers prove that they were right. Since then, more than 700 Ribs have been produced by Ribco, distributed in Greece but also in USA, Middle East, Australia, Monaco, Turkey, England, France, Spain, Italy, Croatia, Montenegro and other European and Eastern countries.

100 G2 X

Outboard Version

700 Hp maximum installable power
57 kn maximum speed

100 G2 X

Standard on Board

NAVIGATION, INSTRUMENTS AND MUSIC

- GPS Raymarine 12", touch screen with map and sounder

- VHF Raymarine
- FUSION marine audio, 4 x speakers

ELECTRIC EQUIPMENT

- Led exterior & interior lighting throughout
- Shorepower + charger

- Radar Raymarine

- Ski pole
- Electric fridge
- Underwater lights
- Search light

Cockpit and deck

- Huge helm station with large flush mounted electronics mounting area
- Hydraulic system
- Weather resistant switch panel

- 12V outlets (2)
- Electric bow anchor windlass / locker in forward bulkhead
- Complete electrical system

- Dedicated port and starboard engine starting batteries
- Dedicated house battery
- Emergency battery crossover capability

- Automatic pumps
- Total fuel capacity 700 lt
- Total water capacity 150 lt
- Charger for batteries

- Huge centre console
- Five people bench seat
- Huge rear sun bed
- Complete set of cushions

Propulsion

- Min 2 X 300 Hp
- Max 2 X 350 Hp

Dimensions

Length (LOA)	9.98 m
Beam (BOA)	3.30 m
Maximum draft fully loaded	0.529 m
Displacement fully loaded	3.000 kg

General

- Exclusive hull, designed for optimal performance
- Non slip decking throughout deck, cockpit, cabin
- Ribco handmade tubes in any color
- Bow eye
- Electric windlass with remote control / Inox Ultra Anchor with 40m chain
- Through-bow anchor roller with stainless steel guard
- 2 X bow cleats, 2 X stern cleats

Safety

- Basic flotation for “Unsinkable” design principal
- Ability to travel at full speed with all air chambers deflated
- High grip antiskid in all walking areas
- Self drained deck
- Watertight cockpit
