

Ribco

Seafarer 36X

Seafarer 36 X

No compromise

Seafarer 36 X is the result of continuous development based on our best seller, Seafarer 36. It was a great challenge to make it even better but we manage to make it happen! A RIB boat that on the one side is easy to maneuver and control but on the other side is luxurious and spacious as the biggest models of Ribco Marine. The deck is completely new. Two cabins, two sunbeds, two rows of seats, WC and a wet bar are all included. Moreover in the standard on board is included a T-Top made 100 % from carbon fiber. It is much lighter and stronger than a conventional one, offering also excellent protection for the passengers.

The revolutionary hull is characterized from the great sea keeping ability, comfort but also great efficiency, high speeds and maximum safety even with the newest engines of the market like the new Mercury V10 400 Hp.

About RIBCO

In 1994 Ribco was born by Stelios Ladopoulos and Valerianos Nikas. Their passion for perfection and their love for the sea was part of the inspiration. Their dream was to produce the best RIB boats in the market. Excellent quality in every aspect, great sea keeping characteristics combined with bulletproof construction. Numbers prove that they were right.

Since then, more than 700 Ribs have been produced by Ribco, distributed in Greece but also in Australia, Monaco, Turkey, England, Spain, Italy, Croatia, Montenegro and other European and Eastern countries.

Hi-Tech materials

The T-Top is made from carbon fiber. It's stronger and much lighter than a conventional one and it looks like a real piece of art.
